DETAILED ACTION

This is an allowance for application no. 10/019,747 in response to the after final amendment filed on February 20, 2006 where in claims 37-39, 41, 44, 46, 49, 56, 58-60, and 63-64 are presented for examination.

Allowable Subject Matter

Claims 37-39, 41, 44, 46, 49, 56, 58-60, and 63-64 allowed.

The following is an examiner's statement of reasons for allowance:

The claims are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose motion picture retrieval information generating apparatuses or managing apparatus as claimed.

In regards to claims 37-39, 44, and 63-64 the closest prior art (Yang et al. US Patent 5,819,286) teaches a similar motion picture retrieval information generating apparatus. Yang further teaches the division of the frames into 5X4 blocks as shown in Figure 6. However, Yang fails to particularly teach or suggest splitting "into 2 to the nth power parts" as required by the claims. Therefore this feature taken with the others in the claim define over the prior art.

In regards to claims 41, 46, 56, and 58-60, the closest prior art ('Indexing and retrieval of the MPEG compressed video' by Kobla et al.) teaches an apparatus for motion picture retrieval information generating using MPEG compressed video (Fig. 2). However, Kobla fails to particularly teach or suggest "a third summary information generating means for generating summary information of all of each of said scenes" as claimed. Kobla further does not teach "wherein the summary information being

generated by said first summary information generating means for each of the plurality of spatially split blocks comprises frequency information and average information " as claimed. Therefore these features taken with the others in the claims define over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick Rekstad whose telephone number is 571-272-7338. The examiner can normally be reached on 8-5.
